Kristine – In preparation for this Friday's roll-out meeting for the revised FS it came to our attention that the equilibrium memo we provided to EPA last year (see email below dated August 7, 2014) did not include the referenced figures. Attached is a copy of the memo with its associated figures as a separate pdf file.

Thanks.

Carl

Subject: Equilibrium Estimates Memorandum

Kristine – Please find attached follow-up information regarding the LWG's June 19, 2014 general proposal for establishing and using equilibrium concentrations in the revised FS. The attached follow-up memorandum provides additional specific estimates of Study Area equilibrium concentrations proposed for use in the revised FS. We would be happy to discuss this at the next FS technical session or at your earliest convenience.

Please let me know if you have any questions about the memorandum.

Thanks.

Carl
